

GOVERNMENT OF INDIA.
DEPARTMENT OF REVENUE AND AGRICULTURE.

Season and Crop Prospects for the week ending Saturday,
6th February 1904.

Madras.—There was no rain during the week. Irrigation supplies are generally sufficient. Ploughing, sowing, and transplanting are in progress in parts. The standing crops are generally good. Harvests continue with fair outturn. Pasture is sufficient. Fodder is procurable. The condition of cattle is good. Prices of dry grain have risen in some districts.

Bombay.—There was no rain during the week. The rainfall has been generally sufficient except in parts of Larkana, Khandesh, Nasik, and Poona. The standing crops have been damaged by locusts in parts of Colaba, Ratnagiri, Khandesh, Poona, Satara, and Belgaum; by rats in parts of Khandesh, Nasik, Ahmednagar, Sholapur, and Bijapur; by frost in parts of Ahmedabad, Karachi, Larkana, Upper Sind Frontier, and Thar and Parkar; by blight in parts of the Carnatic and they are suffering from insufficient moisture in parts of Poona and Sholapur. Harvesting of autumn crops is nearly completed in Baroda, Bijapur, and Broach and continues in parts of Surat, Sholapur, and Dharwar. Threshing is completed in Ahmednagar, is nearly over in Colaba, and continues in parts of Surat, Nasik, and Canara. Harvesting of spring crops is in progress in parts of Thana, the Deccan, and Belgaum. Cotton is slightly damaged by locusts or blight in parts of Khandesh and Dharwar. Picking is completed in Khandesh and Ahmednagar, is nearly over in Hyderabad, and is in progress in parts of Ahmedabad, Broach, Surat, Poona, Satara, Belgaum and Rajkot. The fodder supply is sufficient. Agricultural stock is generally sufficient and in good condition. Prices have fallen in one district; risen in three districts; and are stationary elsewhere.

Bengal.—Rain is reported from the Sonthal Parganas and some parts of Bengal Proper. The fall was heavy at Contai in Midnapore and moderately heavy in parts of East Bengal, but light elsewhere. Rain is needed in Burdwan, Murshidabad, Champaran, and Palamau. Prospects are generally good, but some damage to crops has been caused by insects in Burdwan and by hail in Darjeeling and Mymensingh. Lancing of poppy and harvesting of early spring crops have commenced. Preparation of lands for early rice and jute are proceeding. Fodder and water are generally sufficient. The price of common rice has risen in seven districts, has fallen in six, and is stationary in the remainder.

United Provinces.—No rain fell during the week except a slight sprinkling in Dehra Dun, Garhwal, and Muzaffarnagar. Slight damage by frost, rust and insects is reported from Aligarh, Muttra, Agra, Shahjahanpur, Sitapur, Bara Banki, Fyzabad, and Fatehpur. The crops are otherwise in good condition. Pressing of sugarcane continues and poppy is generally in flower. Markets are well supplied. Food and fodder are sufficient. Prices are stationary.

Punjab.—Slight rain has fallen in parts of Jullundur, Lahore, Amritsar, Ferozepore, and Shahpur. The price of wheat is rising in Hissar, and falling in Delhi, Umballa, Lahore, Shahpur, and Mianwali. The prices of other food-grains are fluctuating. Pressing of sugarcane continues in some districts. The sowing of extra spring crops in certain districts and of sugarcane in parts of Delhi has commenced. Toria is being threshed and cleaned in Mooltan. The condition of the standing irrigated crops is reported good in all districts except Mooltan where it is said to be average. Rain is urgently required for unirrigated crops in Hissar, Delhi, Umballa, and parts of Ferozepore where they are withering for want of it. The outturn of sugarcane in Sialkot and of toria in Mooltan is said to be average. The condition of cattle is generally good throughout the province. Fodder is said to be sufficient in all districts except in parts of Rawalpindi and Delhi.

North-West Frontier Province.—Rainfall—70 cents at Abbottabad, but none elsewhere. The condition of the standing crops is good. Stocks of food-grains and fodder are ample. Water in canals is sufficient. Prices are falling.

Burma.—Slight rain fell during the week in Akyab, Myitkyina, Bhamo, Katha, and the Upper Chindwin. In Lower Burma threshing and winnowing are approaching completion in some districts and are progressing in others. In Upper Burma sowing of dry weather paddy is nearly completed in Sagaing and transplanting has commenced in parts of Shwebo. Reaping of jowar is completed and of millet and sessamum almost completed in the Pakokku and Myingyan districts. Three-fourths of the sessamum crop in the Ruby Mines district have failed owing to late sowings, the remainder is in good condition. The price of paddy

has risen in Akyab and Thayetmyo, and fallen in Amherst and the Upper Chindwin. Insignificant changes are also reported in four districts.

Central Provinces.—The week has been rainless. The last picking of cotton is approaching completion, but there is still a substantial portion of the crop to be brought to market. The threshing of rice and jowar is almost completed. The condition of spring crops has somewhat deteriorated owing to the want of rain but the yields are still anticipated to be about normal. The reaping of linseed has commenced in the Nagpur country where the crop is good. Some slight damage to spring crops has been reported by frost in Balaghat and by insects in the Melghat taluk of the Ellichpur district. The preparation of land has commenced in parts of Berar. Prices have fluctuated only slightly, jowar showing a tendency to rise from its present cheap rate. The prices of wheat and gram are generally low in the Northern districts.

Assam.—The harvesting of winter rice and pulse is finished and the outturn is good. Tea pruning, sugarcane pressing, ploughing for rice and jute, and gathering of mustard are in progress. Prospects of mustard and sugarcane are fair to good. Fodder and water are insufficient in the hills. Prices—common rice—Silchar 19; Sylhet 18; Dhubri, Gauhati and Nowgong 16; Tezpur 14; Sibsagar 13; and Dibrugarh 12 seers per rupee.

Mysore.—Prices are generally steady. The standing crops are good. Prospects of the season are good. Cattle are healthy. Water and fodder are available.

Coorg.—Threshing of rice and picking of coffee continue. Prices of food grains are normal. Water and fodder are sufficient.

Hyderabad.—There was no rain during the week. The standing spring crops are good and the harvest is in progress. Late rice sowings are nearing completion. Crops are in good condition and are being weeded. Prospects are good. Prices—wheat 11½, rice 11, and jowar 32 seers per halli rupee.

Rajputana.—Agricultural operations are satisfactory. The condition of the standing crops is generally good. Agricultural stock is in good condition. Fodder is ample. Prices are favourable.

Central India.—There was slight rain in parts of Gwalior, but none elsewhere during the week. Agricultural operations are in progress. Crops are good everywhere. Agricultural stock and pasturage are generally good. Prices are normal in Gwalior, Indore, and Baghelkhand, and are steady in Bundelkhand, Malwa, and Bhopawar. Opium is good in Gwalior, Indore, Malwa, and Bhopawar.

Kashmir.—The weather is comparatively warmer and less snowy. Prices are stationary.

Jammu.—There was slight rain during the week. Prices are fluctuating. Wheat sells from 15 to 26 and maize 22 to 40 seers per rupee. The condition of the standing crops is good. Fodder is sufficient. Sowings of spring crops have been finished. Land is being prepared for next autumn sowings.

Nepal.—There was no rain during the week. The weather has been cloudy, frosty, and very cold. The price of rice is 6½ seers for the rupee.

J. WILSON,
Secretary to the Government of India.

GOVERNMENT OF INDIA.
HOME DEPARTMENT.

SANITARY.
PLAGUE.

Calcutta, the 11th February, 1904.

The following statement of plague seizures and deaths reported in India during the week ending the 6th February 1904 is published for general information:—

GOVERNMENT OF INDIA.
FINANCE AND COMMERCE DEPARTMENT.

STATISTICS AND COMMERCE.
Customs.

No. 983-S.R., dated Calcutta, the 11th February 1904.

READ—

Customs Circular No. V of 1904.

ORDERED, that the circular be published for general information in the Supplement to the *Gazette of India*.

E. N. BAKER,
Secretary to the Government of India.

Customs Circular No. V of 1904.

With reference to Customs Circular No. XIV of 1903, the Government of India have been pleased to decide that, in the case of sugar shipped to India from the ports of Samarang and Sourabaya, the declarations of origin may be accepted when attested either by the British Vice-Consul (as laid down in the circular above referred to) or by the Resident.

SUPPLEMENT TO
The Gazette of India.

No. 8. } CALCUTTA, SATURDAY, FEBRUARY 20, 1904.

OFFICIAL PAPERS.

A SUPPLEMENT to the GAZETTE OF INDIA will be published from time to time, containing such Official Papers and information as the Government of India may deem to be of interest to the Public, and such as may usefully be made known. The Debates of the Legislative Council of His Excellency the Governor General will in future be published in PART VI of the GAZETTE.

Non-Subscribers to the GAZETTE may receive the SUPPLEMENT separately on a payment of five Rupees per annum if delivered in Calcutta, or eight Rupees if sent by Post. The SUPPLEMENT and PART VI of the GAZETTE can also be subscribed for separately on a payment of Rupees six per annum if delivered in Calcutta or Rupees nine if sent by Post.

No Official Orders or Notifications, the publication of which in the GAZETTE OF INDIA is required by Law, or which it has been customary to publish in the CALCUTTA GAZETTE, will be included in the SUPPLEMENT. For such Orders and Notifications the body of the GAZETTE must be looked to.

GOVERNMENT OF INDIA.
DEPARTMENT OF REVENUE AND AGRICULTURE.

**Rainfall summary for the seven days ending at 8 a.m. on Thursday,
the 18th February 1904, based on the India Daily Weather Reports
of the period.**

During the first five days of the week under review, *viz.*, from the 12th to the 16th, the weather was very quiet and settled over the Indian land area. On the 12th the only rainfall reported was 0·07" at Kodaikanal and on the 13th 0·02" at Tinnevely and 0·01" at Kodaikanal. On the 14th there was no rain anywhere, on the 15th only 0·05" at Gauhati, and on the 16th again no rain in any part of the area. On the 16th conditions were changing somewhat. The barometer was falling almost everywhere and shallow depressions had formed over Gujarat and the Central Provinces. On the 17th these two depressions continued to be shown and a third had appeared over Orissa, while the reports of the 18th showed that the barometer continued to fall and that the three depressions were drifting eastward. These depressions were very shallow but they occasioned disturbed weather, so that, on the 17th Dibrugarh reported 0·12" of rain, Pendra 0·27", Sambalpur 0·38" and Cuttack 0·15", and on the 18th Silchar 0·80", Mymensingh 0·27", Dibrugarh 0·45", Sibsagar 0·18", Tezpur 0·56", Gauhati 1·00", Dhubri 2·36", Shillong 1·32", Cherra Poonjee 1·44", Darjeeling 1·38", Jalpaiguri 0·31", Chaibassa 1·63", Ranchi 0·32" and Hazaribagh 0·31".

The rainfall table shows that during the week under review efficient rain fell in the Narayanganj sub-division, the Brahmaputra division, the Dinajpur and Ranchi sub-divisions and the East Coast (South) division, while in other parts of the country the week has been actually or practically rainless.

The seasonal rainfall has been normal in the following divisions and sub-divisions, *viz.*, Narayanganj, Brahmaputra Valley, North-West Dry Area, Baluchistan, Calicut and Bellary, and excessive in South India and the East Coast (South).

RAINFALL DIVISION WITH REPRESENTATIVE STATION.	Rainfall sub-division named after representative station.	RAINFALL DATA FOR WEEK ENDING ON 18TH FEBRUARY 1904.			RAINFALL DATA FROM 4TH DECEMBER 1903 TO 18TH FEBRUARY 1904.			SEASONAL PERCENTAGE VARIATION.

SIMLA:
The 18th February 1904.

GOVERNMENT OF INDIA.
DEPARTMENT OF REVENUE AND AGRICULTURE.

**Season and Crop Prospects for the week ending Saturday,
13th February 1904.**

Madras.—There was no rain during the week. Irrigation supplies are generally sufficient. Ploughing, sowing, and transplanting are in progress in parts. The standing crops are generally good. Harvests continue with fair outturn. Pasture is generally sufficient and fodder is procurable. The condition of cattle is good. Prices are almost stationary.

Bombay.—There was no rain during the week. The rainfall has been generally sufficient except in parts of Larkana, Khandesh, Nasik, and Poona. The standing crops have been damaged by locusts in parts of Ratnagiri and Satara; by rats in parts of Panch Mahals, Khandesh, Nasik, Sholapur, Satara and Bijapur; by frost in parts of Karachi and Ahmedabad; by blight in parts of Dharwar; they are suffering for want of sufficient moisture in parts of Poona and Sholapur and are generally in good condition elsewhere. Harvesting of autumn crops continues in parts of Surat, Khandesh, Sholapur, and Dharwar. Threshing is completed in Colaba and continues in parts of Surat, Nasik, Poona, and Canara. The harvesting of spring crops is in progress in parts of Broach, Poona, Satara, and Bijapur and has commenced in parts of Khandesh and Nasik. Threshing is in progress in parts of the Panch Mahals and Satara. Cotton is slightly damaged by rats or blight in parts of Bijapur and Dharwar; by frost in parts of Ahmedabad; is in fair condition in the Panch Mahals and Surat, and generally in good condition in Larkana and Broach. Picking is completed in Khandesh and continues in parts of Ahmedabad, Broach, Surat, Poona, Rajkot, and Baroda. The fodder supply is sufficient. Agricultural stock is generally sufficient and in good condition. The water-supply is generally sufficient. Prices have fallen in three districts, risen in one district, and are stationary elsewhere.

Bengal.—No rain is reported for the week. The standing crops require rain in Burdwan, Murshidabad, Champaran, and Palamau. Some damage to crops has been caused by insects in Burdwan. Prospects are otherwise good. Threshing of winter rice, pressing of sugarcane and harvesting of early spring crops continue. The outturn of wheat and oil-seed crops is estimated at 94 per cent. of a normal crop. Preparation of land for early rice and jute is proceeding. Fodder and water are generally sufficient. The price of common rice has risen in seven districts, has fallen in nine, and is stationary in the remainder.

United Provinces.—There was no rain during the week. Rain is now wanted in Dehra Dun, Almora, Bijnor, Moradabad, Bareilly, Budaun, Pilibhit, Bahraich, and Lucknow for unirrigated land. Land is being prepared in places for autumn crops. In Agra, Shahjahanpur, Fatehpur, and Lucknow the crops have been slightly damaged by frost, but are generally in good condition. The poppy crop promises well. The pressing of sugarcane and the irrigation of spring crops continue. The food and fodder supply is sufficient and prices are stationary.

Punjab.—There was no rain during the week. The price of wheat is rising in Hissar and Shahpur and falling in Umballa. The prices of other food-grains are fluctuating. Pressing of sugarcane continues in Jullundur, Lahore, and Amritsar. Sowing of extra-spring crops in certain districts, and of sugarcane in Ferozepore has commenced. The condition of the standing irrigated crops is reported good to fair in all districts, and that of unirrigated crops is unfavourable in Hissar, Delhi, Umballa, and Ferozepore where rain is urgently required. The unirrigated crops in Hissar are withering. The outturn of sugarcane is average in Shahpur. The condition of cattle is generally good in all districts. Fodder is said to be sufficient in all districts, except in parts of Rawalpindi and Delhi.

North-West Frontier Province.—There was no rain during the week. The condition of two standing crops is good. Stocks of food-grains and fodder are ample. Water in canals is sufficient. Prices are falling in Dera Ismail Khan, but are stationary in Peshawar.

Burma.—There was no rain during the week. In Lower Burma threshing and winnowing have been completed in six districts and are progressing in Tharrawaddy and Myaungmya. In Upper Burma reaping of wet weather paddy is practically over. Sowing of dry weather paddy is progressing almost everywhere. Plucking of tobacco leaves in Momeik in the Ruby Mines District and ploughing for sesamum in the Kyaukse township

have commenced. The standing crops are fair to good. The price of paddy has risen in Akyab and Myaungmya and slightly in four other districts and has fallen in Bassein and Bhamo.

Central Provinces.—The weather has been occasionally cloudy but rainless. The picking of cotton still continues in parts of the Nimar, Akola, and Basim districts. The reaping of wheat, gram, and linseed has commenced. The outturns promise to be about the normal. The spring crops are generally in good condition, but owing to the dryness of the soil wheat has suffered somewhat in the Basim taluk. The preparation of land is in progress in Berar. Prices of wheat and rice show a tendency to fall.

Assam.—There was slight rain in Kamrup during the week. Tea pruning, sugarcane-pressing, ploughing for rice, and jute, and gathering of mustard are in progress. Outturn of mustard and sugarcane is fair to good. Fodder is insufficient in parts of Sylhet and in the hills. The water-supply is insufficient in the hills. Prices—common rice—Silchar 19; Sylhet 18; Dhubri, Gauhati, and Nowgong 16; Tezpur and Sibsagar 14; and Dibrugarh 12 seers per rupee.

Mysore.—Prices are generally steady. The standing crops are in good condition and the prospects of the season are good. Cattle are healthy except in parts of Mysore, Shimoga, and Chitaldroog. Water and fodder are available.

Coorg.—Threshing of rice and picking of coffee continue. Prices of food-grains are normal. The water and fodder supply is sufficient.

Hyderabad.—There was no rain during the week. The standing spring crops are in good condition and being harvested. Late rice sowings are nearly completed and the crop is being weeded. Prospects are good. Prices—wheat 11, rice 11, and jowar $31\frac{3}{4}$ seers per halli rupee.

Rajputana.—Agricultural operations are satisfactory. The condition of the standing crops is generally good. Agricultural stock is in good condition. Fodder is ample. Prices are favourable.

Central India.—There was no rain during the week. Agricultural operations are in progress. Crops are in good condition everywhere, but have been slightly damaged by rats in parts of Bhopawar. Agricultural stock and pasturage are generally good. Prices are normal in Gwalior, Indore, Bhopal, and Baghelkhand and steady in Bundelkhand, Malwa, and Bhopawar. The opium crop is good in Gwalior, Indore, Bhopal, Bhopawar, and in parts of Malwa.

Kashmir.—The weather is comparatively less cold and snowy. Prices are stationary.

Jammu.—There was no rain during the week. Prices are fluctuating. Wheat sells from 16 to 26 seers and maize 32 to 38 seers per rupee. The condition of the standing crops on unirrigated lands is good. Fodder is generally sufficient.

Nepal.—There was no rain during the week. The weather has been foggy and cold. The price of rice is $6\frac{1}{4}$ seers for the rupee.

J. WILSON,
Secretary to the Government of India.

GOVERNMENT OF INDIA.
DEPARTMENT OF REVENUE AND AGRICULTURE.

FORESTS.

EXTENSION TO MADRAS AND BOMBAY OF THE RULES FOR ADJUSTMENT OF
EXPENDITURE ON FOREST SURVEYS APPLICABLE TO THE BENGAL PRESIDENCY
AND AMALGAMATION OF THE FOREST SURVEY BRANCH WITH THE SURVEY
OF INDIA DEPARTMENT.

Circular No. 3 213-5 F., dated Calcutta, the 11th February 1904.

RESOLUTION.

The Governments of Madras and Bombay having accepted the suggestion of the Government of India that in future the Forest Surveys in those Presidencies shall come under the supervision and professional control of the Superintendent of Forest Surveys, who is an officer of the Survey of India, it has become necessary to make arrangements for the control and regulation of what will in future be the Forest Survey Branch of the Survey of India.

This Branch will no longer consist of one Imperial Survey party and a few Forest Survey detachments, but will constitute a considerable integral portion of the Survey of India, and the Governor General in Council is pleased therefore to direct that the following arrangements shall be made for the conduct of all Forest Surveys executed in future in India and Burma, in supersession of those promulgated in Resolutions No. 6 of the 6th March 1899 and No. 7 of the 25th April 1901. The arrangements will come into force from the 1st April 1904.

1. All Forest Survey operations in India and Burma, other than those undertaken by local Forest officials, will be carried out under the superintendence of an officer of the Survey of India, who will be nominated by the Surveyor General and designated Superintendent, Forest Surveys. He will be in charge of the Forest Survey Branch of the Survey of India, and his position and powers will be in all respects similar to those of the Superintendent, Trigonometrical Surveys.

2. All officers of the Survey of India, both Imperial and Provincial, at present on deputation to the Forest Department for survey purposes, as well as No. 20 party in its entirety, will revert to the Survey of India.

3. The permanent native subordinate establishment of the old Forest Survey Branch of the Forest Department will be transferred to the Survey of India.

4. All members of the new Forest Survey Branch will be subject to the rules and regulations laid down for the Survey of India.

5. All accounts of the Forest Survey Branch will be kept in accordance with the rules applicable to the Survey of India and be submitted through the Superintendent, Forest Surveys, to the Comptroller, India Treasuries, for audit.

Abstracts of the monthly expense statements will be furnished by the Superintendent, Forest Surveys, to the Conservators of Forests concerned, in order to enable them to adjust the expenditure of their Circles accordingly.

6. The cost of all Forest Surveys on scales of not less than four inches to the mile, executed by the Forest Survey Branch, will be distributed as follows:—

To Topographical Survey	30 per cent.
To Forest „	70 „ „

Provided that when special work is done at the instance of the Local Government, such as a boundary survey, the survey of a plantation on a particularly large scale, or of a river with exceptional detail, made with a view to the improvement of the waterway, the cost of it will be charged entirely to "Forests."

7. The charges for maps will be debited as follows:—

- (a) The cost of the preparation and publication of the first editions of all forest maps drawn in connection with current field surveys, will form part of the general charges for such surveys, and will be distributed in the same way as the cost of the actual field survey. Copies of such maps will be issued free of charge on requisitions signed by Conservators.

- (b) The cost of second and subsequent editions will be borne by the Presidency, Province or Administration concerned.
- (c) The cost of preparation and publication of special maps required for and prepared at the instance of the Inspector-General of Forests, will be debited against the Head-Quarters budget.
- (d) The cost of all special maps prepared and published for Provincial Governments, with the sanction of the Inspector-General of Forests, will be charged to the Government or Administration concerned.

8. The cost of all surveys executed by Local Forest officials will be debited entirely to "Forests."

9. All expenditure on surveys charged to "Forests," in Provinces to which the Provincial Service arrangements apply, will be divided between Imperial and Provincial as heretofore, in the same way as all other Forest expenditure.

10. The annual programme of Forest Surveys for the Bengal Presidency and for Burma will be drawn up by the Superintendent, Forest Surveys, in consultation with Local Governments, and be submitted for approval to the Inspector-General of Forests.

The programmes for Bombay and Madras will be prepared similarly and be submitted for approval to the Governments of those Presidencies. The combined programme will then be submitted by the Superintendent, Forest Surveys, to the Surveyor General, who, after consultation with the Inspector-General of Forests, will include it in the general programme of the Survey of India, which he submits annually to the Government of India for approval.

It is essential that the programme for the year should be settled not later than the 1st July in that year to allow of the probable cost of the operations being intimated by the Superintendent, Forest Surveys, to the various Conservators concerned with a view to suitable provision being made in the Revised Estimate of the Forest Department. When the annual programme of Forest Surveys is settled, the Superintendent of Forest Surveys will furnish to each Conservator concerned a forecast (as accurate as possible) of the operations to be undertaken in the following year and their cost, to serve as a basis in the preparation of the Budget Estimate.

11. The Superintendent, Forest Surveys, will, as heretofore, keep up the map records of the Forest Department, and will prepare such index and working-plan maps, and such other special maps and tracings as may be sanctioned by the Inspector-General of Forests. He will also be responsible for the safe custody and distribution of all forest maps.

12. The following rules will govern the procedure to be adopted in the Estimates and Accounts:—

- (1) All revenue and expenditure controlled by the Superintendent of Forest Surveys will, in the first instance, be shown in the India Accounts as Imperial "Survey of India."
- (2) The Annual Estimates will, however, be prepared separately from those of the Survey of India, and the Superintendent of Forest Surveys will append to them a detailed statement showing the amounts debitable respectively, against Survey of India, against Forest Imperial (India) in respect of the fixed proportion (70 per cent.) of Head-Quarters charges, and against Forests Provincial in respect of the proper share of charges for Provincial Survey operations and the preparation and publication of Forest maps. These estimates will be submitted by the Superintendent of Forest Surveys to the Government of India through the Surveyor General.
- (3) The amounts included in the annual estimates which appertain to the Survey of India and to the several Local Governments will be passed on to the Survey of India Estimate and to the estimates of the Governments concerned. The portion appertaining to the Survey of India Estimate will be included by the Surveyor General therein on receipt of the Resolution passed by the Department of Revenue and Agriculture upon the Forest Survey Estimates previously submitted.
- (4) In order to admit of the above procedure being properly carried out, it is essential that the separate Forest Survey Estimates should reach the Government of India not later than the 1st November annually.
- (5) The actual adjustment of expenditure in the Accounts will be made by the Comptroller, India Treasuries. For this purpose, the Superintendent of Forest Surveys will furnish with his monthly accounts to that officer a detailed distribution statement similar to that appended to his annual estimates. A copy of this statement should be furnished also to the Surveyor General and the Inspector-General of Forests.
- (6) Whenever it is foreseen that the expenditure during the year will exceed or fall short of the sanctioned Budget Estimates, the Superintendent of Forest Surveys will advise the Conservator concerned so that he may apply for additional provision, if necessary, or apply the saving to other purposes.

13. Minor Forest Surveys which are within the competence of the Provincial Forest Staff will be conducted by the local officers of the Circle concerned, but whenever such a work, not of a petty nature, is so undertaken, the advice of the Superintendent, Forest Surveys, regarding it should be first obtained through the Inspector-General of Forests, or in the case of Bombay through the officer in charge of the Working-Plans Branch. This is necessary in order to prevent an undue expenditure of public money on over-elaborate or completely inadequate schemes of survey.

14. In Madras correspondence on Forest Survey matters will, except in regard to minor details, be carried on between the Forest Survey Department and the Board of Revenue as the head of the Forest Department.

Ordered that a copy of this Resolution be forwarded, for information and guidance, to all Local Governments and Administrations noted in the margin, to the Comptroller and Auditor General and to the Comptroller, India Treasuries; also to the Inspector-General of Forests, for information and for communication to the Superintendent of Forest Surveys; and to the Department of Finance and Commerce, and the Surveyor General of India, for information.

Ordered also that the Resolution be published in the *Supplement to the Gazette of India*.

J. WILSON,
Secretary to the Government of India.

N.B.—As regards the figures in column *Total earnings*, audited figures have been used as far as possible.

J. A. ROBERTSON
Offg. Director-General of StatisticsE. N. BAKER
Secretary to the Government of India

Calcutta, February 19, 1904

SUPPLEMENT TO
The Gazette of India.

No. 9. } CALCUTTA, SATURDAY, FEBRUARY 27, 1904.

OFFICIAL PAPERS.

A SUPPLEMENT to the GAZETTE OF INDIA will be published from time to time, containing such Official Papers and information as the Government of India may deem to be of interest to the Public, and such as may usefully be made known. The Debates of the Legislative Council of His Excellency the Governor General will in future be published in PART VI of the GAZETTE.

Non-Subscribers to the GAZETTE may receive the SUPPLEMENT separately on a payment of five Rupees per annum if delivered in Calcutta, or eight Rupees if sent by Post. The SUPPLEMENT and PART VI of the GAZETTE can also be subscribed for separately on a payment of Rupees six per annum if delivered in Calcutta or Rupees nine if sent by Post.

No Official Orders or Notifications, the publication of which in the GAZETTE OF INDIA is required by Law, or which it has been customary to publish in the CALCUTTA GAZETTE, will be included in the SUPPLEMENT. For such Orders and Notifications the body of the GAZETTE must be looked to.

GOVERNMENT OF INDIA.
DEPARTMENT OF REVENUE AND AGRICULTURE.

**Rainfall summary for the seven days ending at 8 a.m. on Thursday,
the 25th February 1904, based on the India Daily Weather Reports
of the period.**

Except over the Peninsula where the weather has been practically*uninterruptedly fine during the week under review conditions have been more or less unsettled and showery.

On the 19th rain was general over Bengal and Assam, while showers were reported in Sind. The heaviest falls of rain were 2.39" at Calcutta, 1.31" at Silchar and 0.76" at Kurrachee. On the 20th the weather was less generally unsettled, but showers were reported from several places in Northern India, the largest amounts registered having been 1.01" at Berhampore, 1.34" at Cherra Poonjee and 1.68" at Jalpaiguri. On the 21st the weather cleared over North-East India and remained fine until the close of the week, but between the 21st and 23rd showers were received over Kashmir, the North-West Himalayas and at a few places on the plains. The heaviest falls of rain were 0.63" at Chakrata and 0.45" at Sonemarg on the 21st, 0.50" at Sonemarg and 0.46" at Minimarg on the 22nd, and 0.66" at Minimarg and 0.20" at Murree on the 23rd. After the latter date the weather cleared and unsettled conditions were transferred to the central parts of the country whence Seoni reported 0.68" of rain and Jubbulpore 0.31" on the 23rd, Pachmarhi 0.42" on the 24th, and Khandwa 0.50", Indore 0.28" and Pachmarhi 0.89" on the 25th. Scattered showers were also received over Baluchistan and Persia during the week, so that, the weather over the whole of the north of the Indian area appears to have been feebly unsettled.

The rainfall table shows that effective rain was received during the week over the Burma Coast, Bengal, the Brahmaputra Valley, the Dinajpur sub-division, the East Gangetic

Plain, the Simla sub-division, Baluchistan, the Cuttack sub-division and the East and West Satpuras—the average actual fall ranging from 1'10" in the Calcutta sub-division to 0'16" in the West Satpuras. The week's rainfall was heavier than usual over the Burma Coast, Bengal, the Brahmaputra Valley, the Dinajpur sub-division, the East Gangetic Plain and the Satpuras.

Over the Peninsula, the Central India Plateau, the North West Dry Area, the West Gangetic Plain and Gujarat actually or practically no rain fell during the week, but over the greater part of these areas the anticipated rainfall at this time is very light.

The seasonal rainfall exceeds the normal over the Narayanganj sub-division, the Brahmaputra Valley, the Dinajpur sub-division, South India and the East Coast (South), is normal in the Calcutta sub-division, the North West Dry Area, Baluchistan and the Bellary sub-division, and is more or less deficient elsewhere.

W. L. DALLAS,

for Meteorological Reporter to the Government of India
and Director General of Indian Observatories.

J. WILSON,

Secretary to the Government of India.

SIMLA:

The 25th February 1904.

GOVERNMENT OF INDIA.
DEPARTMENT OF REVENUE AND AGRICULTURE.

Season and Crop Prospects for the week ending Saturday,
20th February 1904.

Madras.—There was practically no rain during the week. Irrigation supplies are generally sufficient. Ploughing, sowing, transplanting, and weeding are in progress in parts. The standing crops are generally in good condition. Harvesting continues with outturns, which are fair to normal. Pasture is generally sufficient. Fodder is procurable. The condition of cattle is generally good. Prices are almost stationary.

Bombay.—There was very slight rain during the week in parts of Karachi, Hyderabad, Larkana, the Upper Sind Frontier and Kaira. The rainfall has been generally sufficient except in parts of Khandesh, Sholapur, and Poona. The standing crops have been damaged by locusts in parts of Colaba, Ratnagiri, Satara, and Belgaum; by rats in parts of the Panch Mahals, Sholapur, Satara, Bijapur, and Belgaum; by frost in parts of Ahmedabad; and by blight in parts of the Carnatic; they are also suffering from insufficient moisture in parts of Sholapur and are generally in good condition elsewhere. Harvesting of autumn crops continues in parts of Sholapur and Dharwar. Threshing is completed in Colaba and continues in parts of Canara. Harvesting of the spring crops is in progress in parts of Kaira, Broach, Khandesh, Ahmednagar, Poona, Satara, Bijapur, Belgaum, and Rajkot, and has commenced in parts of Surat, and Sholapur. Threshing is in progress in parts of the Panch Mahals, Ahmednagar, and Satara. Cotton has been slightly damaged by frost in parts of Ahmedabad; by blight or rats in parts of the Carnatic; is in fair condition in the Panch Mahals and Surat and generally in good condition in Larkana, Broach, and Wadhwan. Picking is in progress in parts of Ahmedabad, Broach, Poona, Satara, Belgaum, Rajkot, Wadhwan, and Baroda and has commenced in parts of the Panch Mahals, Surat, and Dharwar. The fodder supply is sufficient. Agricultural stock is generally sufficient and in good condition. The water-supply is generally sufficient. Prices have fallen in three districts, risen in four districts, and are stationary elsewhere.

Bengal.—Rain is reported from all districts, except Shahabad, Champaran, Monghyr, and Purnea. The fall was moderately heavy in some places, but for the most part light. The standing crops require rain in Murshidabad and Champaran. Some damage to crops has been caused by hail in Jalpaiguri and Palamau, and by insects in Burdwan. Prospects are otherwise good. Threshing of winter rice, pressing of sugarcane, and harvesting of early spring crops continue. Preparation of land for early rice and jute is proceeding. Fodder and water are generally sufficient. The price of common rice has risen in four districts, has fallen in eight, and is stationary in the remainder.

United Provinces.—Light rain has fallen in eleven districts. The standing crops are generally in good condition but slight damage from insects, frost and rust is reported from Shahjahanpur, Pilibhit, Bahraich, Bara Banki, Rae Bareilly, Allahabad, and Gorakhpur. Preparations are being made for the next sugarcane crop and extra spring crops are being sown. Poppy is flourishing and in some places the extraction of opium is in progress. Fodder is ample and markets are well supplied. Prices continue stationary.

Punjab.—Slight rain has fallen in parts of Umballa, Ferozepore, Amritsar, Rawalpindi, and Mianwali. The price of wheat is rising in Umballa, Jullundur, and Amritsar and falling in Lahore. The prices of other food grains are fluctuating. Pressing of sugarcane continues in Amritsar and Sialkot. Sowings of extra spring crops continue in Jullundur, Ferozepore, and Shahpur and have commenced in Sialkot and Mooltan. Sowings of sugarcane have commenced in certain districts. The condition of standing irrigated crops is reported good to fair in all districts, and that of unirrigated crops is unfavourable in Hissar and Delhi. More rain is wanted in Umballa and unirrigated crops are withering in Hissar. The outturn of sugarcane in Sialkot and Shahpur and of toria in parts of Mooltan is said to be average. The condition of cattle is generally good throughout the province. Fodder is said to be sufficient in all districts except in Delhi and in parts of Rawalpindi.

North-West Frontier Province.—There was no rain during the week. The condition of the standing crops is good, but a few more showers are still wanted for certain crops. Stocks of food grains and fodder are ample. Water in canals is sufficient. Prices are stationary.

Burma.—Slight showers fell in a few districts during the week. Harvest operations are almost completed in both Upper and Lower Burma. The cultivation of dry weather

paddy is still progressing and clearings of hill sides have commenced in the Katha district. Gathering of peas has commenced in Sagaing and is progressing in Pakokku and Lower Chindwin. Sowing of tobacco has been completed in the Seikpyu township of the Pakokku district. The standing crops are doing well. The price of paddy has risen in Thaton and has slightly fallen in Myaungmya. There have been unimportant changes in two other districts.

Central Provinces.—Light showers varying from 2 to 91 cents have fallen in ten districts, the heaviest falls being in the plateau districts and in Sambalpur. The showers have done some slight good to late sown crops, but it is now too late for rain to be of much use except for the preparation of land in the rice districts. The picking of cotton has been completed except in some parts of Berar. The harvesting of spring crops has commenced, the general yield being estimated at quite equal to or rather better than the normal. Slight damage has been caused by white ants to wheat in the Drug Tahsil and by caterpillars to pulses in Narsinghpur. Prices of wheat and rice show a slight tendency to rise in the Northern Districts.

Assam.—Slight to moderate rain fell in all districts during the week. Tea pruning, sugarcane pressing, ploughing for rice and jute, and gathering of mustard are in progress. The outturn of mustard and of sugarcane is fair to good. Fodder is insufficient in parts of Sylhet and in the hills. Water is insufficient in the hills. Prices—common rice—Silchar 19, Sylhet and Tezpur 18, Dhubri, Gauhati, and Nowgong 16, and Sibsagar and Dibrugarh 12 seers per rupee.

Mysore.—Prices are steady in some parts and have slightly risen in others. The standing crops are good. Paddy, gram and sugarcane are being harvested. The prospects of the season are good. Cattle are healthy except in parts of Mysore, Shimoga and Chitalbrug. Water and fodder are available.

Coorg.—Threshing of rice and picking of coffee continue. Prices of food grains are normal. Water and fodder are sufficient.

Hyderabad.—There was no rain during the week. The standing spring crops are generally good. The harvest continues. Late rice sowings have been completed and the crop is being weeded. Prospects are good. Prices—wheat 11½, rice 11, and jowar 32 seers per halli rupee.

Rajputana.—Agricultural operations are satisfactory. The condition of the standing crops and of cattle is generally good. Fodder is ample. Prices are favourable.

Central India.—There was no rain during the week. Agricultural operations are in progress. Crops are good everywhere. Agricultural stock and pasturage are generally good. Prices are normal in Gwalior, Indore, Bhopal, and Baghelkhand, and are steady elsewhere. Opium is good in Gwalior, Indore, Bhopal, Bhopawar, and in parts of Malwa.

Kashmir.—The weather is bright. Prices are stationary.

Jammu.—There was no rain during the week. Prices are fluctuating. Wheat sells from 16 to 26, and maize 22 to 38 seers per rupee. The condition of standing crops on irrigated land is good. Fodder is sufficient.

Nepal.—The weather has been cloudy and cold. The price of rice is 6½ seers for the rupee.

J. WILSON,
Secretary to the Government of India.
